

## Clark Forklift

Clark Forklift Forklift Training - Currently, there are no less than 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 in service in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 particular components fabricated for 20 distinctive designs of lift trucks and automated equipment. Your local Clark Seller is your total source for availability of all your parts requirements provided by Clark Totalift.

Clark's exceptional Parts Distribution Facilities are conveniently located in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the cutting edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a really amazing global support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their customers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every lift truck.

Clark has a relentless objective to have the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

### Lean Manufacturing

Clark has selected the system of "Lean Manufacturing" at all of its assembly facilities because this technique is extremely economical and permits minimal use of resources. Developed to guarantee maximum proficiency, this system is designed to find and acknowledge the most effective ways for production facility stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

### Engine Design

By working collectively, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing expenses. The contemporary value engineering agenda combines progressive product growth and provides superior consumer support and service within the industry.
